

The figure displays three cross-sections of a road profile, each showing the elevation of the road surface, the drainage ditch, and the surrounding terrain. The diagrams are labeled with their respective stationing and elevation data.

Diagram 1 (Left): Stationing from 9.33 to 9.34. Elevation range from 287.45 to 288.77. The profile shows a road surface with a drainage ditch on the right side. The elevation of the ditch bottom is 287.45, and the elevation of the road surface is 288.77. The slope of the ditch is 1:0.15, and the slope of the road surface is 1:0.15.

Diagram 2 (Middle): Stationing from 25.00 to 25.01. Elevation range from 288.69 to 289.74. The profile shows a road surface with a drainage ditch on the right side. The elevation of the ditch bottom is 288.69, and the elevation of the road surface is 289.74. The slope of the ditch is 1:0.15, and the slope of the road surface is 1:0.15.

Diagram 3 (Right): Stationing from 75.00 to 75.01. Elevation range from 288.64 to 289.74. The profile shows a road surface with a drainage ditch on the right side. The elevation of the ditch bottom is 288.64, and the elevation of the road surface is 289.74. The slope of the ditch is 1:0.15, and the slope of the road surface is 1:0.15.
